Increase in compensated absences	 1,155
CHANGE IN NET ASSETS OF GOVERNMENTAL ACTIVITIES	\$ 109,783

NOTES TO FINANCIAL STATEMENTS

April 30, 2010

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the Westmont Public Library, Westmont, Illinois (the Library) have been prepared in conformity with accounting principles generally accepted in the United States of America, as applied to government units (hereinafter referred to as generally accepted accounting principles (GAAP)). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Library's accounting policies are described below.

a. Reporting Entity

The Library is a municipal corporation governed by an elected seven-member board of trustees. As required by GAAP, these financial statements present the Library and any existing component units. Currently, the Library does not have any component units and has been determined to be a component unit of the Village of Westmont, Illinois (the Village).

b. Fund Accounting

The accounts of the Library are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds are maintained consistent with legal and managerial requirements.

The financial position and changes in financial position of the Library's funds are reported in the basic financial statements of the Village as a component unit.

Funds are classified as governmental funds.

The General Fund, a governmental fund, is used to account for all of the Library's general activities.

The Capital Project Fund, a governmental fund, is used to account for all of the Library's capital expenditures.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

c. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of activities and the statement of net assets) report information on all of the nonfiduciary activities of the Library. Governmental activities normally are supported by taxes and intergovernmental revenues.

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment, or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and shared revenues that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

The Library reports the following major governmental funds:

General Fund is the general operating fund of the Library. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Reserve Fund, a capital projects fund, is used to account for the financial resources to be used for the acquisition or construction of major capital facilities.

d. Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred. Property taxes are recognized as revenues in the year for which they are levied (i.e., intended to finance). Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using a current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they become measurable, available, and earned. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

d. Basis of Accounting (Continued)

The Library recognizes property taxes when they become both measurable and available in the year intended to finance. The Library considers other revenue sources as available if they are collected within 60 days after year end. Expenditures are recorded when the related fund liability is incurred.

Those revenues susceptible to accrual are property taxes and investment income. Fine revenue is not susceptible to accrual because generally it is not measurable until received in cash.

The Library reports unearned/deferred revenue on its financial statements. Unearned/deferred revenues arise when a potential revenue does not meet both the "measurable," "available," and "earned" criteria for recognition in the current period. Unearned/deferred revenues also arise when resources are received by the Library before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met or when the Library has a legal claim to the resources, the liability for unearned/deferred revenue is removed and revenue is recognized.

e. Cash and Cash Equivalents

Cash and cash equivalents include amounts in demand deposits and investments with a maturity date of three months or less from the date acquired by the Library.

f. Investments

Investments with a maturity of one year or less when purchased and non-negotiable certificates of deposit are stated at amortized cost. Investments with a maturity greater than one year when purchased are reported at fair value.

g. Capital Assets

Capital assets, which include land, buildings, and equipment, are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by the Library as assets with an initial, individual cost of more than \$25,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

g. Capital Assets (Continued)

Major outlays for capital assets and improvements are capitalized as projects are constructed. Buildings are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings and Improvements	20 - 40
Furniture and Equipment	5 - 20

h. Compensated Absences

Vested or accumulated vacation leave, including related social security and medicare, that is owed retirees or terminated employees is reported as expenditure and a fund liability of the governmental fund that will pay it once retirement or separation has occurred. Vested or accumulated vacation leave of governmental activities at the government-wide level is recorded as an expense and liability as the benefits accrue to employees.

i. Interfund Transactions

Interfund services transactions are accounted for as revenues or expenditures. Transactions that constitute reimbursements to a fund for expenditures initially made from it that are properly applicable to another fund, are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the fund that is reimbursed.

All other interfund transactions, except interfund services transactions and reimbursements, are reported as transfers.

j. Fund Balances/Net Assets

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change. None of the restricted net assets result from enabling legislation adopted by the Library. In the government-wide financial statements, restricted net assets are legally restricted by outside parties for a specific purpose. Invested in capital assets, net of related debt, represents the book value of capital assets less any long-term debt principal outstanding issued to construct or acquire the capital assets.

2. DEPOSITS AND INVESTMENTS

The Library does not have a separate investment policy, but instead follows the guidelines established by Illinois Compiled Statutes (ILCS). State statutes authorize the Library to make deposits/invest in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreements to repurchase these same obligations, short-term commercial paper rated within the highest classifications by at least two standard rating services, Illinois Funds, and Illinois Metropolitan Investment Fund.

Illinois Funds is an investment pool managed by the State of Illinois, Office of the Treasurer, which allows governments within the State to pool their funds for investment purposes. Illinois Funds is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in Illinois Funds are valued at Illinois Fund's share price, which is the price for which the investment could be sold.

Library Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of a bank's failure, the Library's deposits may not be returned to it. As of April 30, 2010, all the Library deposits were covered under FDIC insurance. The Library does not have an explicit policy for collateralization of deposits.

Library Investments

The following table presents the investments and maturities of the Library's debt securities as of April 30, 2010:

				Inv	estmen	t M	atur	ities in Y	ean	rs	
Investment Type Fair Val		Fair Value	Less than 1		1-5		6-10		Greater	than 10	
Illinois Funds	\$	1,105,763	\$ 1,105,763	\$		-	\$		_	\$	
TOTAL	\$	1,105,763	\$ 1,105,763	\$		-	\$		-	\$	

The Library limits its exposure to interest rate risk by only investing in Illinois Funds, which are highly liquid investments.

The Library limits its exposure to credit risk, the risk that the issuer of a debt security will not pay its par value upon maturity, by investing exclusively in Illinois Funds. Illinois Funds is rated AAA.

2. DEPOSITS AND INVESTMENTS (Continued)

Library Investments (Continued)

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Library will not be able to recover the value of its investments that are in possession of an outside party. Illinois Funds are not subject to custodial credit risk.

Concentration of credit risk - The Library invests exclusively in Illinois Funds which are considered internally diversified and not subject to concentration of credit risk.

3. RECEIVABLES - TAXES

The following information gives significant dates on the property tax calendar of the Library.

- The 2009 property tax lien date is January 1, 2009;
- The annual tax levy ordinance for the 2009 levy was passed on December 15, 2009;
- Property taxes for the 2009 levy are due to the County Collector in two installments, June 1, 2010 and September 1, 2010; and
- Significant amounts of property taxes for the 2009 levy will be distributed to the Village during June, July, August, and September of 2010. The remaining distributions are expected to be received in October and November 2010.

The 2010 tax levy, which attached as an enforceable lien on property as of January 1, 2010, has not been recorded as a receivable as of April 30, 2010 as the tax has not yet been levied by the Village, and will not be levied until December 2010 and, therefore, the levy is not measurable at April 30, 2010.

4. CAPITAL ASSETS

The following is a summary of changes in capital assets during the fiscal year:

	8.7	Balances May I	I	ncreases	Е	Decreases		Balances April 30
GOVERNMENTAL ACTIVITIES Capital Assets not Being Depreciated

CAFITAL ASSETS, NET	Φ.	2,070,732	Þ	200,201	Ф	1.50	\$	3,239,253

Depreciation expense was charged to functions/programs of the governmental activities as follows:

GOVERNMENTAL ACTIVITIES Culture and Recreation

\$ 231,097

5. LONG-TERM DEBT

a. Debt Certificates Payable

As of April 30, 2010, the Library had the following debt certificates outstanding:

	Total	Current		
\$825,000 General Obligation Debt Certificates, Series 2009, dated August 10, 2009, for a roofing project; maturing July 10, 2019; interest rate 4.875%; principal payable semiannually on January 10 and July 10.	\$ 729,758	\$ 67,000		

5. LONG-TERM DEBT (Continued)

b. Changes in Long-Term Debt

A summary of changes in the Library's long-term debt is as follows:

	lances lay 1	Is	ssuances	7	Retired	Balances April 30	Current Portion
Debt Certificates Compensated Absences	\$ - 7,755	\$	825,000 396	\$	95,242 1,551	\$ 729,758 6,600	\$ 67,000 1,320
TOTAL	\$ 7,755	\$	825,396	\$	96,793	\$ 736,358	\$ 68,320

The Debt Certificates and compensated absences liability have been liquidated in prior years by the General Fund.

c. Debt Service Requirements to Maturity

Fiscal Year	2009 Debt Certificates*						
Ending April 30,	F	Principal	Interest	Total			
2011 2012 2013 2014 2015 2016 2017 2018 2019	\$	67,000 71,000 74,000 77,000 81,000 85,000 89,000 95,000 90,758	\$	34,771 31,456 27,946 24,314 20,512 16,514 12,322 7,910 3,230	\$	101,771 102,456 101,946 101,314 101,512 101,514 101,322 102,910 93,988	
TOTAL	\$	729,758	\$	178,975	\$	908,733	

^{*}The 2009 Debt Certificates were issued with an original final maturity date of July 10, 2019. The Library has paid and intends to continue paying amounts greater than the minimum debt service requirements. The Debt Service Requirements to Maturity table reflects the revised payment schedule as of April 30, 2010.

6. RISK MANAGEMENT

The Library is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; illnesses of employees; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage for the past three fiscal years.

7. INDIVIDUAL FUND DISCLOSURES

Interfund Transfers

Interfund transfers between funds for the year ended April 30, 2010 were as follows:

Transfers	In Transfers Out	Married 5	Amount			
General	Capital Projects	_\$_	188,338			
TOTAL		\$	188,338			

The purpose of the significant interfund transfer is as follows:

• \$188,338 was transferred between the General Fund and the Capital Projects Fund to fund current year capital projects.

8. PENSION COMMITMENTS

The Library, under the sponsorship of the Village, contributes to the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer public employee retirement system that acts as a common investment administrative agent for 2,594 local governments and school districts in Illinois.

Although IMRF is an agent multiple-employer pension plan, the Library's participation through the Village is considered to be that of a cost sharing, multiple-employer pension plan.

All Library and other Village employees hired in positions that meet or exceed the prescribed annual hourly standards must be enrolled in IMRF as participating members. Pension benefits vest after eight years of service. Participating members who retire at or after age 60 with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings for each year of credited service up to 15 years and 2% for each year thereafter. IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by ILCS.

Participating members are required to contribute 4.5% of their annual salary to IMRF. The Library, under the sponsorship of the Village, is required to contribute the remaining amounts necessary to fund the system, using the actuarial basis specified by statute. For the calendar year ended December 31, 2009, the employer rate was 12.12% of covered payroll. Total payroll for the year was \$675,652. A separate actuarial valuation for Library employees is not performed. Actuarial information regarding IMRF is presented in the Village's Comprehensive Annual Financial Report.

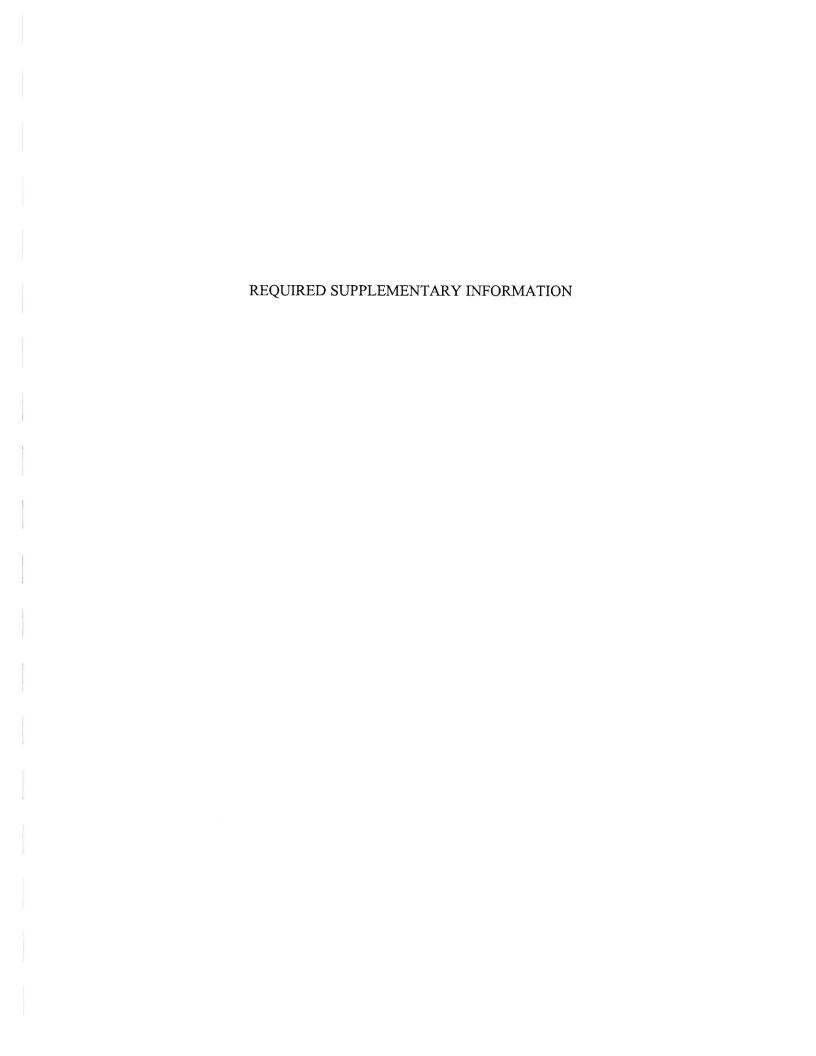

8. PENSION COMMITMENTS (Continued)

The amount shown below as the actuarial accrued liability is a standardized disclosure measure of the present value of pension benefits, estimated to be payable in the future as a result of employee service to date. The measure is intended to help users assess the funding status of IMRF on a going-concern basis, assess progress made in accumulating sufficient assets to pay benefits when due, and make comparisons among employers. The measure is the actuarial entry-age normal method prorated on service and is the same as the funding method used to determine contributions to IMRF.

The actuarial accrued liability for the Village as a whole as of December 31, 2009, 2008, and 2007 was \$17,008,988, \$17,627,839, and \$15,974,195, respectively. The actuarial value of assets at these dates was \$10,822,525, \$11,524,525, and \$12,026,659, resulting in an underfunded actuarial accrued liability as of December 31, 2009, 2008, and 2007 of \$6,186,463, \$6,103,314, and \$3,947,536, respectively. The Library's contribution for the year ended April 30, 2010, 2009, and 2008 represented 9.60%, 12.63%, and 12.62%, respectively, of the total amount contributed by the Village.

RESTATEMENT

Fund balance of the General Fund and net assets of the governmental activities have been restated by \$31,303 as of May 1, 2009 to correct the reporting of amounts due to the Village.

SCHEDULE OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE - BUDGET AND ACTUAL GENERAL FUND

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

April 30, 2010

LEGAL COMPLIANCE AND ACCOUNTABILITY

Budgets

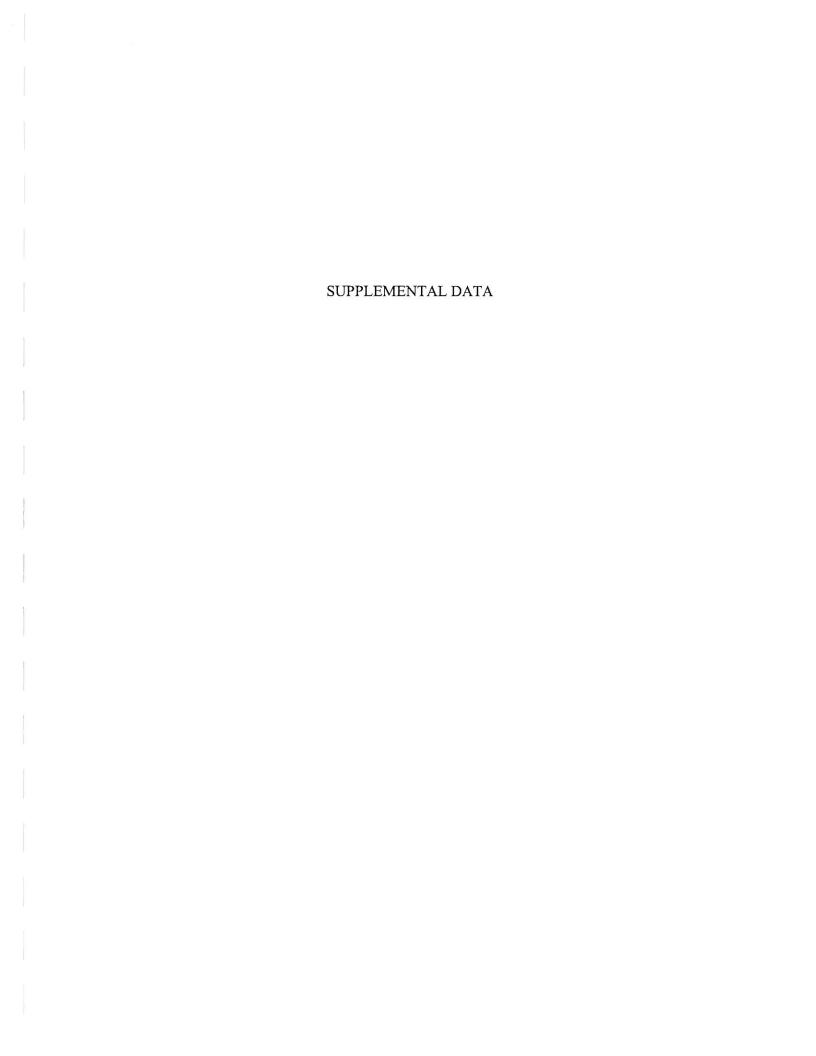

The Library follows these procedures in establishing budgetary data reflected in the financial statements:

- a. The Library submits to the Board of Trustees a proposed operating budget for the fiscal year. The operating budget includes proposed expenditures and the means of financing them.
- b. Budget hearings are conducted.
- c. The budget is legally enacted through the passage of an ordinance by the Board of Trustees after approval through a motion.
- d. The budget may be amended by the Board of Trustees. There were no amendments during the year.
- e. Budgets are adopted on a basis consistent with GAAP.

The level of control (level at which expenditures may not exceed budget/appropriations) is the fund. Budget/appropriations lapse at year end.

The following funds have legally adopted budgets:

- General Fund
- Capital Projects Fund

SCHEDULE OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE - BUDGET AND ACTUAL SPECIAL REVENUE FUND

	Final Budget	Actual
